Jerry Olds made a presentation on how the distribution schedule for the system was divided and indicated that the court system had to establish the delivery schedule. After some discussion, Maurice Harvey made the motion to accept the proposed delivery schedule and have it submitted to the court for approval. The motion was seconded and carried.

The C.U.W.C.D. was requested to send notification to the State Engineer's office in Vernal when the C.U.P. exchanges were being made. It was indicated that they would be put on the mailing list and should receive them.

Ken Clayburn, the river commissioner, expressed some concern on how the Starvation Reservoir was to be regulated to not interfere with the direct stream flow rights. Leo Brady indicated that he and Ken would work closely together to coordinate the delivery and exchange of water on the Duchesne-Strawberry Distribution System.

The meeting was adjourned.
